

Sec. 19-88. Swimming pools.

Any artificially constructed portable or nonportable pool or container capable of being used for swimming, wading or bathing or any combination thereof, wholly outside a permanently enclosed and roofed building and designed to hold 2,500 gallons or more of water or a depth of two feet or more at any point.

(1) *Application.* The application for a building permit to erect a swimming pool shall include the name of the owner, the manner of supervision of the pool, a plot plan and location of adjacent buildings, fencing, gates, public utilities, specifications and plans to scale of pool walls, slope, bottom, walkway, diving boards, type and rating of auxiliary equipment, piping and valve layout, and other detailed information affecting construction and safety measures deemed necessary by the zoning administrator.

(2) *Pool location.* Pools shall not be located within the required side yard setback or front yard. The rear yard setback shall not be less than four feet between the outside wall of the pool and the rear property line or less than four feet between the pool wall and any building on the lot.

(3) *Fence.* For the protection of the general public, outdoor swimming pools shall be enclosed by a wall, fence or other type of enclosure which may consist in part of the residence to which swimming pool is appurtenant. Such wall or fence shall be not less than four feet or more than six feet above the ground line of the abutting level. Such wall, fence or enclosure shall not be required for all or such part of the pool that is four feet or more above the abutting ground level; provided, that a suitable barrier is furnished to deter entrance to the pool by persons not having the permission of the pool owner to enter therein when pool is not in use. Any wall shall be of wood, brick or masonry and any fence may be solid or designed so as to permit circulation of air; provided, that any wall or fence shall not be designed of such a nature as to permit any child to pass over, under or through any such fence except at a gate or door when such gate or door shall be opened. All openings in any such fence shall be equipped with a self-closing, self-latching gate which shall be securely locked.

(4) *Public utilities.* All electrical installations or wiring in connection with swimming pools shall conform to the provisions of the National Electrical Code. If service drop conductors or other utility wires cross under or over a proposed pool area, the applicant shall make satisfactory arrangements with the utility involved for the relocation thereof before a permit shall be issued for the construction of a swimming pool. No portion of a swimming pool or associated structure shall be permitted to encroach upon any easement or right-of-way which has been granted for public utility use.

(Ord. No. 101, § 4.35, 3-23-71; Ord. No. A51, 8-16-89; Ord. No. 156-A-113, § 1, 4-20-05)
