**Subject:** 2610 Pearson site plan

Hello Tim,

It does not appear that they are following the site plan that they originally had. They are bringing in some nasty fill dirt with block and brick in it instead of digging a hole. Just being a concerned neighbor for the new homeowner and the new neighbor to their west which almost flooded out on the last rainfall 5-12-2018.

Thank you,  
David Mamo
