

*Home occupations* shall meet the following requirements:

- (1) A home occupation shall be incidental to the residential use of the premises.
- (2) No article or service shall be sold or offered for sale on the premises except such as is produced by or related to such occupation.
- (3) The home occupation shall not require internal or external alterations or construction features or outdoor storage.
- (4) The home occupation shall not involve the use of commercial vehicles for bulk delivery of materials or products to or from the premises.
- (5) No equipment or machinery or process shall be used in such home occupation which creates noise, vibration, glare, fumes, odors or electrical interference detectable to the normal senses off the site. No equipment or process shall be used which creates visual or audible electrical interference in any radio or television receiver off the premises or causes fluctuations in line voltage off the premises.
- (6) Only one nonilluminated name plate shall be attached to a building.
- (7) No home occupation shall require the employment of anyone other than the dwelling occupant permanently residing on the premises.
